

Main Locations

3 day South Coast Jökulsarlon tour

- 1) **Seljalandsfoss** – the waterfall you can walk behind. Works better in the afternoon so this is a good one for the journey back.
- 2) **Skogafoss** – a popular waterfall, much bigger than Seljalandsfoss and you can climb to the top. Not as many compositional opportunities as Seljalandsfoss. This will be a stop on day one.
- 3) **Reynisdrangur** – beach with the sea stacks and black sand near Vik. Lots of dramatic shots available in a variety of conditions. This will be included on our first or last day.
- 4) **Eldhraun** – Europe's largest lava field. Opportunities for stopping to feel the moss.
- 5) **Skaftafell** – a national park with beautiful mountains and glacier tongues.
- 6) **Fjallsarlon** – a glacier lagoon near Jökulsarlon. Water is less attractive colour, but very close to the ice-shelf.
- 7) **Jökulsarlon** – the famous glacier lagoon with the floating icebergs and the Ice Beach.
- 8) **Vestrahorn** – a beautiful beach – mountain combination.
- 9) **Skutudallur** – a East coast valley with some surprising waterfalls.
- 10) **Fjaðrárgljúfur** – a beautiful river gorge.
